

Priority Override

These three signals jump the queue and you get to speak next

Meta

I want to speak about the way we discuss, not content

False Facts

This claim isn't true and I can prove it

Veto

A blocker in consensus seeking environments

Hand Signals for Discussions in LARGE GROUPS

Discussions in groups of 20+ people are daunting. Hand signals allow to express opinions without interrupting flow. Some of the gestures are for individuals, some can be amplified by others. They work best if you keep a running list of people who want to speak.
